EXPERIENCE

RH +ve (11/2019)

- Im working on a blood donation project it is based on front-end web development. The basic idea of this project is to provide blood for needy person as quick as possible. Connect our site for near hospitals and blood banks. Basic Template is ready only left modification to make professional website.

IMA(Indian Medical Association) (10/2019 - 10/2019)

- Me and my two team member work on this project. It is based on the medical history provide of the patient to the another state or country of doctor, company. Medical history as like a RFID card to provide the knowledge of patient diseases.
