📄 Projects

GTBIT Gates Event
Feb-2020 - Feb-2020

🔗 gtbitgates2020.herokuapp.com

I got a chance to create a website for our college annual event GATES and tried as much i can.

Please have a look at work.

ISRO
Jun-2019 - Sep-2019

🔗 isro.herokuapp.com

This is the project that i made while i was in the starting phase of the web developement.
In this project i tried to give a different and intresting look to the website of ISRO.
Working stack: HTML5, CSS3, Bootstrap 4, JS , jquery, AOS.

IMAhistory
Oct-2019 - Oct-2019

🔗 http://imahistory.000webhostapp.com

This is the project that i made in the group for a hackathon(hackcbs2.0) which is used to store the medical history of the patient. Doctor can check the history of the patient just by their Username and hospital staff can update their history.An health insurance company can also check the medical history of the patient before insuring their insurance and so on...

Rh +ve
Aug-2019 - Ongoing

Me and my team of three person working on a project named "Rh +ve".The project is based on blood donation.We are trying to provide blood to every needy person as quick as possible .
